

POSNER CENTER
SYMPOSIUM 2019
LESSONS IN COLLABORATION

PARTNER & SPONSOR PACKAGE

The Symposium

The Posner Center Symposium is a gathering of Colorado-based leaders who are committed to improving global development work through collaboration. We will convene organizational leaders and experts, local and global stakeholders, and partners and supporters, to share knowledge, experiences, and lessons learned to improve global development work and contribute to the evidence base on best practices in collaborative development. This will not be your typical symposium. We will present new case studies, raw lessons learned, research analysis, and in-depth dialectics in a day-long session with content and meeting protocols that are provocative, engaging, memorable, and innovative. The event will begin with an evening reception Thursday, February 21, 2019, followed by a full-day Symposium on Friday, February 22.

Posner Center Symposium 2019: Lessons in Collaboration

Thursday – Friday, 21 – 22 February 2019

1031 33rd Street | Denver, CO 80205

About the Posner Center for International Development

The Posner Center is a nonprofit organization with a mission to convene, connect and catalyze the global development community to collaborate for greater impact, and the vision of a more equitable and prosperous world. We bring together nonprofit and for-profit global development organizations working across all sectors in over 100 countries, empowering them to develop new relationships, share knowledge and resources, increase their capacity, and transform global development work.

Advancing Best Practices

In addition to providing a forum for thought leadership & knowledge-sharing at the Symposium, proceedings will also form the basis for the planned Posner Center Best Practices Report. This report will advance the evidence base for global development best practices with a unique focus on collaboration, provide a forum for the Posner Center Community to communicate its work, and be scaled to a peer-reviewed journal.

2020 and Beyond

The Posner Center plans to progressively grow the Symposium from one day of proceedings that gather primarily Colorado-based global development organizations to a multi-day global conference.
