

Scoring Rubric:

The ideas with the highest 5 scores on this rubric will be asked to continue in the ICF process. Applications with a check in the “disqualified” column in any category will be disqualified.

	Disqualified	1	2
Summary Statement	None of the project leadership is from the community where the work is taking place	Some project leadership is from the community where the work is taking place, and some leads are from other communities	All project leadership is from the community where the work is taking place. Supportive roles can be filled by others not from this community
Problem Statement	This project has been created by people outside of the community where the work will take place without community input	This project seeks to identify challenges experienced by the community but has not done so yet. OR This project has been requested by the community where the work will take place, but the solutions have not yet been identified	This project is clearly requested by the community where the work will take place. The solutions to solve the challenge have or will come from community input
Project Activity	The impacted community had/will have no input on project activities and/or there is no evidence that the activities will be impactful	The community where the work will take place will be able to provide input and be involved in project activities	Project activities were selected by the community where the work will take place, and follow (or be testing) evidence-based best practices for equity and impact. Evidence may be collected through research or lived experiences

<p>Justice, Equity, Diversity, Inclusion (JEDI)</p>	<p>This project does not include justice, equity, diversity, or inclusion considerations</p>	<p>This project only addresses diversity or inclusion while upholding a current inequitable system i.e. increasing diversity or accessibility to unpaid internships</p>	<p>This project addresses inequities by creating more just systems. i.e. eliminating unpaid internships</p>
<p>Outcomes & Impact</p>	<p>Goals & objectives are not clearly defined. OR Participants will not receive meaningful data</p>	<p>Goals & objectives will be defined by the community, but have not yet been defined</p>	<p>Goals & objectives are defined by the community impacted by the work. Participants will receive any data collected in a way that is meaningful</p>
<p><i>If Applying to the PB and K Family Foundation Annual Environmental Grant</i></p>	<p>This project does not have a connection to sustainability or the environment</p>	<p>This project will demonstrate impacts on sustainability or the environment, but project work will not be focused on either</p>	<p>This project is focused on sustainability or the environment</p>
